

**A fixed annuity offering
index-linked earnings and
downside protection**

MARKETBOOSTER INDEX[®]

Featuring a 7% bonus paid over two years

When creating a strategy for your financial future, you have two choices generally: the growth potential of stocks or the lower returns of more conservative alternatives.

Ideally, you want your financial vehicle to offer the upside potential of stocks, with none of the downside risk.

MARKETBOOSTER INDEX from EquiTrust Life Insurance Company® gives you benefits when markets are rising, and security when they're fluctuating. Plus, there's the added benefit of tax advantages offered by a fixed annuity.

And EquiTrust Life will provide a 7 percent bonus paid over two years.

MARKETBOOSTER INDEX enables you to:

- Lock in S&P 500®¹ gains
- Avoid losses when the Index declines

When the Index is Up ... You're Up! When it's Down ... You're Not!

The **MARKETBOOSTER INDEX** annuity allows you to share only in index gains...not the losses. And you benefit from tax-deferred earnings, withdrawal privileges,² built-in guarantees³ and 7 percent bonus – all without investing directly in the stock market.

You may choose among several accounts. The 1-Year Interest Account earns a fixed interest rate, and a variety of Index Accounts earn credits based on changes in the S&P 500®.

On appropriate contract anniversaries, "index credits" are determined on all Index Accounts and applied to your contract's current accumulation value. Index credits are based on S&P 500® performance. If the index continues steady growth, your accumulation value grows. If the S&P 500® declines, your accumulation value is simply unchanged from the preceding period's accumulation value.

At the end of the surrender charge period, you have access to your contract's full accumulation value – including market-index gains – with no surrender charges. However, by leaving your money in **MARKETBOOSTER INDEX** beyond the surrender charge period, you continue to earn interest and index credits on a tax-deferred basis.

The Impact of Market Fluctuation

This hypothetical illustration shows the increasing accumulation values during years where the index value has positive increases, and unchanged accumulation values when the index value declines. The illustration assumes 100% of the initial premium is allocated to the 1-Year Point-to-Point Cap Index Account, including the 7% bonus paid over two years.

This hypothetical illustration should not be considered representative of current or future performance. The example assumes no surrender or withdrawals. Current interest rates and index cap rates may change each indexing period. Accumulation Value increases at the end of years one and two reflect the 2% and 1% accumulation value bonuses credited respectively on contract anniversaries. All rates used in this illustration are hypothetical and subject to change. Ask your agent for current rates.

You Control Your Money ... Going In *and* Coming Out

FLEXIBLE PREMIUMS

After making your initial premium payment, you may add subsequent premiums of \$2,000 or more at any time. Subsequent premiums may not exceed \$250,000 in any contract year after year one. There are no fees, loads or sales charges. Additional premium payments plus bonus (if applicable) are directed to the 1-Year Interest Account until the next contract anniversary, at which time they can be reallocated. If you would like all initial premiums to be allocated similarly, you may authorize the Company to wait to issue the contract until all specified premiums are received. You may allocate your premiums among the following crediting accounts.

INDEX-BASED ACCOUNTS

- **1-Year Point-to-Point Cap Index Account** – If the index value at the end of the contract year is greater than the index value at the beginning of the contract year, you receive index credits based on that increase, subject to a specified cap. The cap is reset annually.
- **1-Year Average Cap Index Account** – If the average of the **daily** index values for the contract year is greater than the index value at the beginning of the contract year, you receive index credits based on that increase, subject to a specified cap. The cap is reset annually.
- **1-Year Average Participation Index Account** – If the average of the **monthly** index values for the contract year is greater than the index value at the beginning of the contract year, you receive index credits based on that increase multiplied by the participation rate. The participation rate is reset annually.
- **1-Year Monthly Cap Index Account** – Index crediting for this account is based on the cumulative sum of capped monthly S&P 500® changes over a one-year period. Each of the monthly gains is subject to a cap, but there is no floor on monthly declines. Index credits are calculated on an annual basis and will never be less than zero. The Monthly Cap is reset annually.

FIXED RATE ACCOUNT

- **1-Year Interest Account** – A one-year fixed interest rate is set when your contract is issued. The rate is set annually, and provides a guaranteed rate that you may prefer for a portion of your assets. For any subsequent premiums received, interest is credited based on the fixed rate declared at the beginning of that contract year.

PREMIUM ALLOCATIONS

You may request a change to your current premium allocations at any time; any reallocation request will take effect on the following contract anniversary and will apply only to any additional contributions during the current contract year.

EquiTrust Life Is a Name You Can Trust

When you choose EquiTrust as a financial partner, you can rest assured your annuity contract is backed by conservative investment strategies, anchored by a disciplined and diversified management style. EquiTrust is supported by a history of success, experience and strength; we're a Guggenheim Partners company – a global financial services firm with more than \$160 billion under management.

BONUS

The 7 percent bonus is added to your contract's accumulation value over two years. 4 percent is added immediately to all premium payments made during the first year, and 2 percent and 1 percent are added respectively to the accumulation value on the first and second contract anniversaries. In addition, any subsequent premiums received in years two through five will receive the 4 percent bonus. Once added, the bonuses are a permanent part of your accumulation value. If you surrender your contract, you don't lose the bonuses previously added to your accumulation value.

ACCOUNT TRANSFERS

On each contract anniversary, you have the ability to transfer money among the various accounts offered in your contract. After a transfer, the remaining balance in a given option, if any, must be at least \$2,000.

FREE WITHDRAWALS

You may withdraw up to 10 percent of the accumulation value each year, after the first contract year, without paying any charges.²

LUMP-SUM PAYMENT OPTION

Your contract's cash surrender value is available to you as a lump sum at any time. Surrender charges are in effect during the first nine contract years, and are a percentage of the accumulation value: 17.5, 17.5, 17.5, 17.5, 17.5, 13, 10, 8 and 6 percent⁴. In addition, early surrenders or withdrawals over 10 percent may be subject to a Market Value Adjustment⁵ (MVA). After the ninth contract year⁴, your cash surrender value will equal the full accumulation value. Ask your agent for more details on the MVA, or refer to your contract.

ANNUITIZATION OPTIONS

Several annuitization payment options are available, including payment for life, payment of a designated amount or payment for a certain period of time. You determine the schedule that best fits your financial circumstances – a period as short as five years, or for as long as the annuitant is alive. Your agent can help you determine the most appropriate payment option, or discuss a specific payment schedule you may have in mind.

Other Features

THE VALUE OF TAX DEFERRAL

Currently, all interest income earned on an annuity accumulates on a tax-deferred basis. No income taxes are payable until you receive a payment from your contract. If you are under age 59½ at the time of withdrawal, an additional 10 percent IRS penalty may be imposed. Tax deferral is currently available only to individuals and joint owners, not to corporations or other non-individuals.⁶

MINIMUM GUARANTEED CONTRACT VALUE

You are guaranteed to receive **no less** than 87.5 percent of your premiums – less any partial withdrawals – accumulated at the minimum guaranteed contract rate. This rate is set when the contract is issued and does not change for the life of the contract. Ask your agent for the minimum guaranteed rate.

NURSING HOME WAIVER RIDER

For additional peace of mind, your contract includes a Nursing Home Waiver Rider⁷ at no extra cost. If you are confined to a nursing home or hospital for 90 days or more, your contract accumulation value will be available without surrender charges or MVA⁵ beginning in the second contract year and during your confinement.

EquiTrust Life Insurance Company

7100 Westown Pkwy Suite 200
West Des Moines, IA 50266-2521
877-249-3694

This product is not sponsored, endorsed, sold or promoted by Standard & Poor's, and Standard & Poor's makes no representation regarding the advisability of purchasing this product. The S&P 500® Index does not reflect dividends paid on underlying stocks.

² Surrender of the contract may be subject to surrender charges or market value adjustment. Withdrawals before age 59½ may result in a 10% IRS penalty tax. Withdrawals do not participate in index growth. In the event of a full surrender, charges will apply to any penalty-free amounts taken during the same contract year.

³ The guarantees expressed in this brochure are based on the claims-paying ability of EquiTrust Life Insurance Company.

⁴ The surrender charge period and surrender charges may vary by state. Florida, Illinois, Indiana, Maryland, Oklahoma, Vermont and Virginia 9-year schedule: 15, 15, 15, 15, 15, 13, 10, 8 and 6 percent.

⁵ Market Value Adjustment may not apply in all states.

⁶ Neither the Company nor its agents give tax, accounting or legal advice. Please consult your professional adviser in these areas.

⁷ Nursing Home Waiver Rider is not available in Massachusetts.

Contract issued on Contract Form Series ET-MKB-2000(07-05) with Rider ET-AVBR(06-09) and Rider ET-IMVA(07-09). Group Certificates issued on Form Series ET-MKB-2000C(01-07) with Rider ET-AVBRC(06-09) and Rider ET-IMVAC(07-09). May not be available in all states.

BENEFITS UPON DEATH OF OWNER

If the owner of the annuity dies, the full accumulation value (including bonuses) is paid to the beneficiary, without surrender charges or MVA.⁵

FREE-LOOK PERIOD

After your **MARKETBOOSTER INDEX** contract is issued, you have a specified number of days to review it; see your contract for complete details. If you are not completely satisfied with the terms, you may return the contract and receive 100 percent of your premiums paid, minus any prior withdrawals.

Ask Your Agent

Ask your agent about the variety of options **MARKETBOOSTER INDEX** offers for the stages of your life, or refer to your contract.

This is a summary only. The **MARKETBOOSTER INDEX** annuity may not be available in all states. In those states where it is available, certain provisions may vary or may not be available. Prior to purchasing this contract, contact your agent or the Company for complete contract provisions and details.

This brochure briefly highlights EquiTrust Life Insurance Company's MarketBooster Index annuity contract and its benefits. For costs and complete details of coverage, including any exclusions, reductions or limitations, and the terms under which the contract may be continued in force, contact your EquiTrust Life agent.

IRAs/qualified plans are already tax deferred; consider other annuity features.
