The power of predictability

Perhaps the most predictable thing about markets is their unpredictability. So, when it comes to your retirement savings, predictable growth can help you plan for your retirement with more confidence.

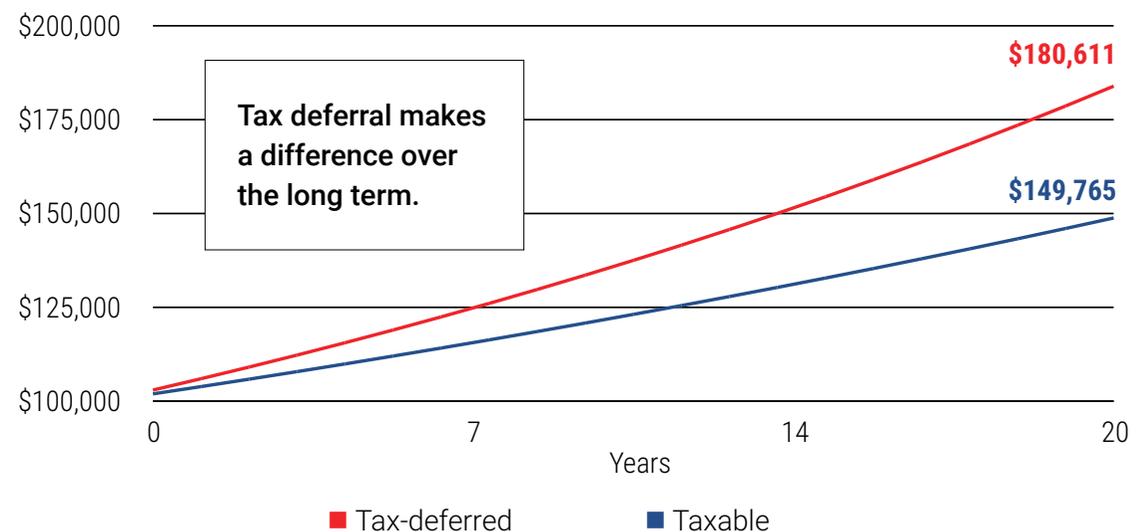

Protected growth

A *Lincoln MYGuarantee*SM Plus fixed annuity guarantees a fixed interest rate that you can count on. And since it's not based on market performance, there's no market risk. The interest rate gets set at issue and is guaranteed for the initial interest rate guarantee period.¹ Afterward, you'll receive a new interest rate each subsequent year.

Combined with a tax-deferred advantage

Lincoln MYGuarantee Plus combines predictable growth and protection with a tax-deferred advantage. Since you won't be taxed until you make withdrawals, there's potential to earn more than you might with taxable products, like a CD.

Tax deferral can offer you even more dependable growth

This example is hypothetical and for illustrative purposes only. Withdrawals of earnings are taxable as ordinary income and, if taken prior to age 59½, may be subject to an additional 10% federal tax. The hypothetical rates of return shown in this example are not guaranteed and should not be viewed as indicative of past or future performance. This example is based on a hypothetical situation assuming taxable and tax-deferred growth of \$100,000, a 3% annual interest rate and a 32% tax rate over a 20-year period. Changes in tax rates and tax treatment of investment earnings may impact the hypothetical example. Lower maximum tax rates on capital gains and dividends would make the return for the taxable contract more favorable, thereby reducing the difference in performance between the accounts shown. Investors should consider their individual investment time horizon and income tax brackets, both current and anticipated, when making an investment decision, as these may further impact the results of the comparison.

Guarantees are subject to the claims-paying ability of the appropriated issuing company.

¹ Interest rates are declared by the issuing company at its discretion, based on contract features, including additional rider benefits and the death benefit. Subsequent interest rates may be higher or lower than the initial rate and may differ from those used for new contracts or contracts issued at different times.

It's your retirement. So you choose the best way to take income.

A Lincoln MYGuaranteeSM Plus fixed annuity also gives you the flexibility to choose an income option that works best for your lifestyle, needs and goals.

A range of income options

10% annual free withdrawals

During the initial interest rate guarantee period, you can take 10% free withdrawals each year.

Systematic withdrawals

You can elect to receive your money annually, semiannually, quarterly, monthly or bimonthly, and you can start and stop at any time.

Guaranteed regular income stream

After the fifth contract year, you can elect to annuitize your contract. Select from a variety of income payment options, including for a certain time period or for your entire lifetime.

Access for medical needs

If you have a qualifying medical need, a nursing home and terminal illness provision allows you to access your money without charges, after the first contract year.¹

Leave a legacy for your loved ones. Your beneficiaries will receive the current amount in your contract as a death benefit, if it hasn't been annuitized.

A history of strength and stability

Since our inception in 1905, we have successfully navigated the changing landscape through good and bad times, and continue to stand strong, stable and dedicated to helping Americans confidently succeed their way.
