

MNL Endeavor[®]

Fixed Index Annuity

“All change is not growth, as all movement is not forward.”

Ellen Glasgow

MNL Endeavor®

Change is a constant throughout our lives. However, the expectation of what we'd like to achieve throughout our lives doesn't change. Most of us expect to accumulate a reliable income for our retirement years so we can enjoy the financial freedom we deserve, no matter what changes. Choosing the right accumulation vehicle for retirement can be difficult, especially as conditions decline. We need options to help us navigate through calm or turbulent times. The MNL Endeavor from Midland National® provides those options.

The MNL Endeavor is a flexible premium fixed index annuity and is not an investment in the stock market or in the applicable indices. Rather it is a fixed annuity that allows you to benefit from the advantages that a fixed annuity offers such as tax-deferral, potential long-term growth, death benefit payout, and income for life. Additionally, this annuity offers an Index Account that provides growth potential without experiencing loss of premium from market loss or fluctuations in the market. The Interest Credits will not mirror the actual performance of the index itself, but rather the index closes (monthly, annually, etc.) are used as a basis for determining what the Interest Credits will be. The MNL Endeavor is unique in that it offers an additional option for growth if index performance remains level or decreases.

Change happens one day at a time, and it's good to know you've got options to make the most of your future.

Under current law, annuities grow tax deferred. An annuity is not required for tax deferral in qualified plans. Annuities may be subject to taxation during the income or withdrawal phase. Neither Midland National, nor any agents acting on its behalf, should be viewed as providing legal, tax or investment advice. Consult with and rely on your own qualified advisor.

Summary of Features

- Index Account Options including the Inverse Performance Trigger that offers a declared rate of interest as a result of a zero or negative index performance
- A premium bonus on all premiums received in the first five contract years is available on the MNL Endeavor 8 Plus and MNL Endeavor 12 Plus products
- Tax-deferral, income for life and full Accumulation Value at death

This brochure is not complete and must be presented with the Product Details sheet that describes issue ages, premium bonus (if applicable), surrender charges, riders, and more.

Products that have premium bonuses may offer lower credited interest rates, lower Index Cap Rates, lower Participation Rates and/or greater Index Margins than products that don't offer a premium bonus. Over time and under certain scenarios the amount of the premium bonus may be offset by the lower credited interest rates, lower Index Cap Rates, lower Participation Rates and/or greater Index Margins. You may lose some or all of the premium bonus if withdrawals are taken in excess of those allowed due to the Premium Bonus Recapture feature discussed later in the brochure.

This brochure is not complete and must be presented with the Product Details sheet that describes issue ages, premium bonus, surrender charges, riders, and more.

Benefits of Owning a Deferred Annuity

Tax-Deferral

Tax-deferred growth allows your money to grow faster because you earn interest on dollars that would otherwise be paid in taxes. Your premium earns interest, the interest compounds within the Contract and the money you would have paid in taxes earns interest. This chart shows the impact of a tax-deferred annuity.

Lifetime Income

Midland National can provide you with a guaranteed income stream with the purchase of your tax-deferred annuity. You have the ability to choose from several different annuity payout options, including life or a specified period. *See the Product Details sheet for more information on Annuity Payout Options.*

Death Benefit

Midland National will pay out, as the Death Benefit, the Accumulation Value to your beneficiary upon the death of the annuitant or an owner. Your beneficiary may choose to receive the payout in either a lump sum or a series of income payments. If joint annuitants are named, the Death Benefit will be paid on the death of the second annuitant. If joint owners are named, the Death Benefit will be paid on the death of the first owner.

May Avoid Probate

By naming a beneficiary, you may minimize the delays, expense and publicity often associated with probate. Your designated beneficiary receives death proceeds in either a lump sum or a series of income payments. *Please consult with and rely on your own legal or tax advisor.*

Contract Values

Accumulation Value

The Accumulation Value is 100% of premium, plus any applicable premium bonus allocated to the Fixed and Index Accounts, plus any Interest Credit or other interest earned. It will be reduced by the amount of any withdrawals, but cannot decrease due to negative index performance.

For detailed information on charges incurred if the Contract is surrendered, see the Surrender Charge section on the Product Details sheet.

Surrender Value

The Surrender Value is the amount that is available at the time of surrender. The Surrender Value is equal to the Accumulation Value, subject to the Interest Adjustment, less applicable surrender charges, Premium Bonus Recapture, and state premium taxes. The Surrender Value will never be less than the minimum requirements set forth by state laws, at the time of issue, in the state where the Contract is delivered.

The Power of Tax-Deferral

The chart is a hypothetical example of tax-deferral and assumes an initial premium of \$100,000 earning 4.00% compounded annual rate of return for 15 years. It is not intended to predict or project performance. *The tax-deferred value less taxes represents the increase in value, due to tax-deferral, less taxes at an assumed rate of 33% with no surrender charge or Interest Adjustment applied.

This brochure is not complete and must be presented with the Product Details sheet that describes issue ages, premium bonus, surrender charges, riders, and more.

What if I need to Access my Money?

Access to your money is always an important concern. The MNL Endeavor offers a variety of liquidity features. For additional withdrawals before the end of the surrender charge period, surrender charges may apply. Withdrawals will be treated as ordinary income and if taken before age 59½ may be subject to a 10% IRS penalty. Withdrawals from your Contract will also reduce your Accumulation Value accordingly.

Penalty-Free Withdrawals

The MNL Endeavor allows you to take a penalty-free withdrawal (also known as a Penalty-Free Partial Surrender) of up to 10% of your current Accumulation Value once each contract year after the first contract anniversary, without incurring surrender charges, Premium Bonus Recapture (if applicable), or having the Interest Adjustment applied. Any amount withdrawn in excess of 10% will be assessed a surrender charge, Premium Bonus Recapture (if applicable), and possibly an Interest Adjustment.

Annuity Payout Options

Should you decide to receive an income from your annuity after the surrender charge period, you will have several annuity payout options from which to choose. Annuity payout options are a benefit of deferred annuities, but are not a requirement with the MNL Endeavor.

Once a payout option is elected and annuity payments begin, all other rights and benefits under the annuity end. On non-qualified plans, a portion of each income payment represents a return of premium that is not taxable, thus reducing your tax liabilities.

See the Product Details sheet for more information on Annuity Payout Options.

Interest Adjustment

(Also known as Market Value Adjustment)

The MNL Endeavor also includes an Interest Adjustment feature which may decrease or increase your Surrender Value depending, on the change in interest rates since your annuity purchase. Lower interest rates at time of issue may result in less opportunity for a positive Interest Adjustment in future contract years. In certain rate scenarios at the time of issue, it may not be possible to experience a positive Interest Adjustment.

Due to the mechanics of an Interest Adjustment, the Surrender Value generally decreases as interest rates rise or remain constant. Likewise, when interest rates decrease enough over a period of time, the Surrender Value generally increases. However, the Interest Adjustment is limited to the interest credited to the

Accumulation Value.

This adjustment is applied only during the surrender charge period to surrenders exceeding the applicable penalty-free amount. *See the "Understanding the Market Value Adjustment" brochure for more information.*

Interest Adjustment is not available in Utah.

Surrender Charges

Surrender charges allow the Company to invest your money on a long-term basis and generally credit higher yields than possible with a similar annuity of shorter term. During the surrender charge period, a surrender charge is assessed on any amount withdrawn, whether as a partial or full surrender, that exceeds the penalty-free allowance applicable and may result in a loss of premium. Additional premiums deposited into existing contracts will maintain the surrender charge schedule set forth at policy issue date. Certain payout options may incur a surrender charge and premium bonus recapture (if applicable).

See the surrender charge schedule which details the declining charges on the Product Details sheet.

A surrender during the surrender charge period could result in a loss of premium. Surrender charge structure may vary by state. Consult your Product Details sheet and Annuity Disclosure Statement for details specific to your state.

Premium Bonus Recapture Provision

(Applicable to MNL Endeavor 8 Plus and MNL Endeavor 12 Plus products)

A premium bonus will be credited on premium received during the first five contract years. During the surrender charge period, withdrawals in excess of the penalty-free allowance or a full surrender will incur a premium bonus recapture. This is in addition to any applicable surrender charges and/or Interest Adjustments. This recapture schedule applies to all premium bonus credits, including the additional premium bonus, and is set at issue.

See the Premium Bonus Recapture Schedule which details the declining percentages on the Product Details sheet.

This brochure is not complete and must be presented with the Product Details sheet that describes issue ages, premium bonus, surrender charges, riders, and more.

Choose Your Index Options

There are two main aspects that factor in determining the Interest Credits; the Index Account (crediting method) and the specific index.

You have total control over how your initial premium is allocated between our Fixed Account or Index Accounts. Midland National offers several Index Account options that can be used to calculate Interest Credits including Monthly Point-to-Point, Annual Point-to-Point, and Inverse Performance Trigger.

These crediting methods allow you to select from several different indexes noted in the index options chart. Each of these Index Account options performs differently in various market scenarios. It is important to note that the fixed account interest is never applied to premium allocated to the Index Accounts. *Please refer to the "How it Works-Crediting Methods" brochure for more information on the differences.*

The MNL Endeavor Offers A Variety Of Index Options Including

S&P 500® Index	This index has been widely regarded as the best single gauge of the large cap U.S. equities market since the index was first published in 1957. The index includes 500 leading companies in leading industries of the U.S. economy.
S&P 500® LOW VOLATILITY DAILY RISK CONTROL 5% INDEX	The S&P 500® Low Volatility Daily Risk Control 5% Index strives to create stable performance through managing volatility (i.e. risk control) on the S&P 500 Low Volatility Index. The S&P 500 Low Volatility Index measures performance of the 100 least volatile stocks in the S&P 500®. The index adds an element of risk control by allocating between stocks, as represented by the S&P 500 Low Volatility Index, and cash. The index adds an element of risk control by applying rules to allocate between stocks, as represented by the S&P 500 Low Volatility Index, and cash.
S&P MidCap 400® Index	The S&P MidCap 400® Index provides investors with a benchmark for mid-sized companies. The index seeks to remain an accurate measure of mid-sized companies, reflecting the risk and return characteristics of the broader mid-cap universe on an on-going basis.
Dow Jones Industrial Average™ Index (DJIA®)	Dow Jones Industrial Average™ Index – The oldest continuing stock market index, the DJIA® is one of the most well known and widely followed indicators of the U.S. stock market in the world. It is represented by 30 of the largest U.S. stocks, including household names and leaders in their respective industries.
Russell 2000	The Russell 2000® Index measures the performance of the small-cap segment of the U.S. equity universe. The Russell 2000 Index includes approximately 2,000 of the smallest securities based on a combination of their market cap and current index membership.
Nasdaq-100® Index	The Nasdaq-100® index includes 100 of the largest domestic and international non-financial securities listed on The Nasdaq Stock Market based on market capitalization. The index reflects companies across major industry groups including computer hardware and software, telecommunications, retail/wholesale trade and biotechnology.
EURO STOXX 50	The EURO STOXX 50® (Price) Index is a free-float market capitalization-weighted index of 50 European blue-chip stocks from those countries participating in the EMU. Each component's weight is capped at 10% of the index's total free float market capitalization.
Hang Seng	The Hang Seng Composite Index ("HSCI") offers a comprehensive Hong Kong market benchmark that covers companies listed on the Main Board of the Stock Exchange of Hong Kong ("SEHK"). The HSCI can be used as a basis for index funds, mutual funds as well as performance benchmarks.

This brochure is not complete and must be presented with the Product Details sheet that describes issue ages, premium bonus, surrender charges, riders, and more.

Crediting Methods

Monthly Point-to-Point with Index Cap Rate	Monthly Point-to-Point	This method for determining any Interest Credit uses the monthly changes in the Index Value, subject to a monthly Index Cap Rate. The Interest Credit is credited annually and is based on the sum of all the monthly percentage changes in the index value—which could be positive or negative. On each contract anniversary, these monthly changes, each not to exceed the monthly Index Cap Rate, are added together to determine the Interest Credit for that year. Negative monthly returns have no downside limit and will reduce the Interest Credit, but the Interest Credit will never be less than zero.
	Index Cap Rate	Your annuity applies an Index Cap Rate, or upper limit, to calculate your Interest Credits each year for the Monthly Point-to-Point. This cap, which is applied monthly, may change annually. The Index Cap Rate will be declared on each contract anniversary and is guaranteed for that year. The Index Cap Rate is set at the Company's discretion, however, at no time will this cap ever fall below the minimum guaranteed Index Cap Rate set for the Monthly Point-to-Point Index Account.
Annual Point-To-Point with Index Cap Rate	Annual Point-To-Point	This calculation method measures the change in index value using two points in time; the beginning index value and the ending index value for that year. Index linked gains are calculated based on the difference between these two values. The index change, if any, is then subject to an Index Cap Rate. The annual Interest Credit will never be less than zero.
	Index Cap Rate	Your annuity applies an Index Cap Rate, or upper limit, to calculate your Interest Credits each year applied to the Annual Point-to-Point Index Account option. This cap is applied annually and may change annually. It is declared on the Contract anniversary and is guaranteed for that year. The Index Cap Rate is set at the Company's discretion. However, at no time will this cap ever fall below the minimum guaranteed Index Cap Rate set for the Annual Point-to-Point Index Account.
Annual Point-To-Point with Index Margin	Annual Point-To-Point	This calculation method measures the change in index value using two points in time; the beginning index value and the ending index value for that year. Index linked gains are calculated based on the difference between these two values. The Index growth, if any, is then subject to an Index Margin. The annual Interest Credit will never be less than zero.
	Index Margin	Once a gain has been calculated using the Annual Point-to-Point Index Account option, an Index Margin is subtracted. The Index Margin is guaranteed for the first year, but can change each year thereafter at the Company's discretion. The Index Margin is set in advance each contract year, however at no time will it be greater than the maximum Index Margin for the Annual Point-to-Point Index Account.
Inverse Performance Trigger	Inverse Performance Trigger (or Annual Declared Rate Negative Performance Option)	The Inverse Performance Trigger is based on the S&P 500®. The S&P 500® Index Value from the beginning of your Contract year is compared to the Index Value at the end of the Contract year. If the ending S&P 500® Index value is equal to or less than the starting value, the money allocated to this option will be credited interest at the Declared Performance Rate. If the ending Index Value is greater than the beginning Index Value, the money allocated to this option will receive a zero percent (0%) Interest Credit.
	Declared Performance Rate	This method for determining any Interest Credit applies a Declared Performance Rate of interest when the Index Value stays the same or goes down throughout the year. This Declared Performance Rate may change annually, and it will never fall below the minimum guaranteed rate. The Declared Performance Rate is set each year at the Company's discretion.
Fixed Account	Premium allocated to the Fixed Account will be credited interest at a declared Fixed Account interest rate and is credited daily. The initial premium interest rate is guaranteed for the first contract year. For each subsequent contract year, we will declare, at our discretion, a Fixed Account interest rate that will apply to the amount allocated to the Fixed Account as of the beginning of that contract year. A declared Fixed Account Interest rate will never fall below the minimum guaranteed fixed account interest rate.	

Ask your sales representative for the current rates, minimum Index Cap Rates, maximum Index Margins, and Fixed Account rates.

This brochure is not complete and must be presented with the Product Details sheet that describes issue ages, premium bonus, surrender charges, riders, and more.

As already noted, Midland National offers several Index Account options in which you can choose to allocate your premium. One of our more unique offerings on this product is the Inverse Performance Trigger. This crediting method allows for growth potential, even in a down market. The following explains further how this crediting method works.

Inverse Performance Trigger

Growth potential in times of negative index performance – that’s what the Inverse Performance Trigger option (or Annual Declared Rate Negative Performance Option) offers. Similar to the Fixed Account option, the Inverse Performance Trigger offers both a Declared Performance Rate and a guaranteed minimum for that declared rate. The difference with the Inverse Performance Trigger option is that in years when the Index increases, the money you allocate to this option would receive a zero percent (0%) Interest Credit. When the Index performance is either flat or negative, the Inverse Performance Trigger provides for a declared rate Interest Credit that may be greater than the interest rate offered in the Fixed Account option. The Inverse Performance Trigger is based on the S&P 500® Index. The S&P 500® Index Values from the beginning of your Contract year are compared to the Index Values at the end of the Contract year. If the ending S&P 500® Index value is equal to or less than the starting value, the money allocated to this option will be credited interest at the Declared Performance Rate. If the ending Index Value is greater than the beginning Index Value, the money allocated to this option will receive a zero percent (0%) return (see chart below). The annual Declared Performance Rate is set annually by the Company in advance of the next Contract year, but will never be less than the guaranteed minimum.

As you can see in this hypothetical example, the Declared Performance Rate of 4% is credited when the Index Change is either zero or negative. No matter what the negative change is, the credited rate remains the same.

The Interest Credit Rate shown reflects a hypothetical Declared Performance Rate and is provided as an example. This rate is subject to change each year. This example is not intended to predict or project performance.

This brochure is not complete and must be presented with the Product Details sheet that describes issue ages, premium bonus, surrender charges, riders, and more.

Annual Reset

The annual reset allows an Interest Credit, if any, to be added to your Index Accounts each contract anniversary. That amount, when added, becomes “locked-in” and cannot be taken away due to negative index performance. The “locked-in” Interest Credit will be added to the Accumulation Value, giving you the advantage of compounding interest in subsequent years.

This feature also resets your starting index point each contract anniversary. Annual Reset can be a benefit when the index experiences a severe downturn during the year because you can take advantage of the gains from that point forward. Without this feature, you would have to wait for the index to climb up to its original level before any gains could be realized.

Transfer Options

Each year, you may elect to transfer your values between the Fixed Account and Index Account options. You may also elect to transfer between crediting methods within the Index Account options on an annual basis. Transfers are not allowed until your first contract anniversary. Based on current tax laws, these transfers between options will not be taxable or subject to surrender penalties. *Please refer to your MNL Endeavor annuity contract for minimum transfer amounts.*

Subsequent Premiums

All subsequent premiums will be credited a fixed interest rate. We will declare this interest rate for each subsequent premium at the time that subsequent premium is received. The interest rate applicable to each subsequent premium is guaranteed until the end of the Contract year. On each contract Anniversary, Midland National will allocate any premiums received since the prior contract Anniversary among the accounts, according to your most recent instructions. Subsequent premiums added during the first five contract years will receive a premium bonus. The premium bonus for subsequent premiums is also subject to the premium bonus recapture feature, should withdrawals in excess of these be taken.

Getting Started

Choose each year:

1. Index Account Options

- Monthly Point-to-Point
and/or
- Annual Point-to-Point
and/or
- Inverse Performance Trigger

2. How to allocate your premium*

- _____ % S&P 500®
- _____ % S&P 500® Low Volatility
Daily Risk Control 5%
- _____ % S&P MidCap 400®
- _____ % DJIA®
- _____ % Nasdaq-100®
- _____ % Russell 2000®
- _____ % EURO STOXX 50®
- _____ % Hang Seng®
- _____ % Fixed Account

*See the Diversify Your Premium Chart on the Product Details sheet for index availability under each Index Account Option.

This section is for your reference only. It does not need to be returned to Midland National.

This brochure is not complete and must be presented with the Product Details sheet that describes issue ages, premium bonus, surrender charges, riders, and more.

This brochure is not complete and must be presented with the Product Details sheet that describes issue ages, premium bonus, surrender charges, riders, and more.

This brochure is for solicitation purposes only. Please refer to your Contract for any other specific information. With every Contract that Midland National issues there is a free-look period. This gives you the right to review your entire Contract and if you are not satisfied, return it and have your premium returned. Fixed Index Annuities are not a direct investment in the stock market. They are long term insurance products with guarantees backed by the issuing company. They provide the potential for interest to be credited based in part on the performance of specific indices, without the risk of loss of premium due to market downturns or fluctuation. They may not be appropriate for all clients.

Premium taxes: Accumulation Value will be reduced for premium taxes as required by the state of residence. The MNL Endeavor[®] is issued on form AC/AS124A (certificate/contract), AR153A, AR158A, AR159A, AR160A, AR163A-1, AR194A, AR199A, AR227A, and AR277A (riders/endorsements) or state variation by Midland National[®] Life Insurance Company, West Des Moines, IA. This product, its features and riders may not be available in all states.

Special Notice Regarding The Use Of A Living Trust As Owner Or Beneficiary Of This Annuity.

The use of living trusts in connection with an annuity contract can be a valuable planning mechanism. However, a living trust is not appropriate when mass-produced in connection with the sale of an insurance product. We strongly suggest you seek the advice of your qualified legal advisor concerning the use of a trust with an annuity contract.

Neither Midland National[®], nor any agents acting on its behalf, should be viewed as providing legal, tax or investment advice. Consult with and rely on a qualified advisor. Under current law, annuities grow tax deferred. Annuities may be subject to taxation during the income or withdrawal phase. The tax-deferred feature is not necessary for a tax-qualified plan. In such instances, you should consider whether other features, such as the Death Benefit, lifetime annuity payments and riders make the Contract appropriate for your needs.

This brochure is not complete and must be presented with the Product Details sheet that describes issue ages, premium bonus, surrender charges, riders, and more.

MNL Endeavor[®] 12 Plus Product Details

The MNL Endeavor[®] 12 Plus is issued on form AC/AS124A (certificate/contract), AR153A, AR159A, AR160A, AR163A-1, AR194A, AR199A, AR200A, AR201A, AR227A, and AR277A (riders/endorsements) or appropriate state variation by Midland National[®] Life Insurance Company, West Des Moines, IA. This product, its features and riders may not be available in all states.

Fixed Index Annuities are not a direct investment in the stock market. They are long term insurance products with guarantees backed by the issuing company. They provide the potential for interest to be credited based in part on the performance of specific indices, without the risk of loss of premium due to market downturns or fluctuation. They may not be appropriate for all clients.

The EURO STOXX 50[®] is the intellectual property (including registered trademarks) of STOXX Limited, Zurich, Switzerland and/or its licensors ("Licensors"), which is used under license. The Index Accounts in this Product based on the Index are in no way sponsored, endorsed, sold, or promoted by STOXX and its Licensors and neither of the Licensors shall have any liability with respect thereto.

The "S&P 500[®]", "S&P 500[®] Low Volatility Daily Risk Control 5% Index", "S&P MidCap 400[®]", and "DJIA[®] Indices ("Indices") are products of S&P Dow Jones Indices LLC or its affiliates ("SPDJI") and have been licensed for use by Midland National[®] Life Insurance Company ("the Company"). Standard & Poor's[®] and S&P[®] are registered trademarks of Standard & Poor's Financial Services LLC ("S&P") and Dow Jones[®] is a registered trademark of Dow Jones Trademark Holdings LLC ("Dow Jones"). The trademarks have been licensed to SPDJI and have been sublicensed for use for certain purposes by the Company. The MNL Endeavor 12 Plus ("Product") is not sponsored, endorsed, sold or promoted by SPDJI, Dow Jones, S&P, any of their respective affiliates (collectively, "S&P Dow Jones Indices"). S&P Dow Jones Indices does not make any representation or warranty, express or implied, to the owners of the MNL Endeavor 12 Plus or any member of the public regarding the advisability of investing in securities generally or in this Product particularly or the ability of these Indices to track general market performance. S&P Dow Jones Indices only relationship to Midland National with respect to these Indices is the licensing of the Index and certain trademarks, service marks and/or trade names of S&P Dow Jones Indices and/or its licensors. The Indices are determined, composed and calculated by S&P Dow Jones Indices without regard to Midland National or the Product. S&P Dow Jones Indices has no obligation to take the needs of the Company or the owners of this Product into consideration in determining, composing or calculating these Indices. S&P Dow Jones Indices is not responsible for and have not participated in the determination of the prices, and amount of the MNL Endeavor 12 Plus or the timing of the issuance or sale of this Product or in the determination or calculation of the equation by which the Product is to be converted into cash, surrendered or redeemed, as the case may be. S&P Dow Jones Indices has no obligation or liability in connection with the administration, marketing or trading of the Product. There is no assurance that investment products based on these Indices will accurately track index performance or provide positive investment returns. S&P Dow Jones Indices LLC is not an investment advisor. Inclusion of a security within an index is not a recommendation by S&P Dow Jones Indices to buy, sell, or hold such security, nor is it considered to be investment advice.
